We are to have a new Methodist church soon; the house will be 65 feet long and 35 feet wide.

The Graceville boys crossed bats with the Campbellton team Saturday. The score stood 10 to 10 at the end of third inning, when the Campbellton catcher gave up his mitt and claimed to be sick, so ended the game. But we claim the victory as they agreed to play five innings and our boys were anxious to finish the game, and offered them the privilege to put a man in the sick doctor's place, but they declined. Boys we will play you again when you feel like it.
BALL PLAYER.
Mr. Isaac Horner, proprietor of the Burton House, Burton, W. Va., and one of the most widely known men in the state was cured of rheumatism after three years of suffering. He says: "I have not sufficient command of language to convey any idea of what I suffered, my physicians told me that nothing could be done for me and my friends were fully convinced that nothing but death would relieve me of my suffering. In June, 1884, Mr. Evans, then salesman for the Wheeling Drug Co., recommended Chamberlain's Pain Balm. At this time my foot and limb were swollen to more than double their normal size and it seemed to me my leg would burst, but soon after I began using the Pain Balm, the swelling began to decrease, the pain to leave, and now I consider that I am entirely cured. For sale by B. B. Bellamy and J. R. Farrior.

CHIPLEY, FLORIDA.

W. C. T. U.

It was a bonnie silver dollar—E. Floribus Unum—Goddess of Liberty, thirteen stars, 1804 (A. D.) United States of America, spread eagle, laurel, and—"In God We Trust." It might have been two "naives" or four "quarters," but on "halves" and on "quarters" as on the dollars, was the same devout statement, "In God We Trust." It came to the moon keeper one day; his "cash register" clicked and rang and dropped it into the till and in exchange he gave his customer a glass of "mixed," and two silver coins, a half dollar and a quarter dollar, and on each piece was the motto: "In God We Trust."

It seemed out of place—like a Methodist at a matinee. On the walls of the saloon were nude actresses, prize fighters, distinguished politicians who were opposed to summary laws. At tables were men engaged in drinking beer, wine, whiskey; playing cards, swearing, telling obscene stories; and just beyond was the "ladies" sitting room.

"In God We Trust!" The saloon keeper read it. The customer read it. And the saloon keeper and his customer laughed—as the devil laughs when a man says, "I believe in God"—and doesn't. Who trusts? The United States of America, or you and I? Who trusts? Your "Internal Revenue" department? Your congress? Your Supreme court? Your United States of America? I don't trust in God! If I trusted in God, I would not collect a tax from a man whose business has been pronounced by the Supreme Court a "source of crime and misery." "In God We Trust!" Bosh! He put the same question to the County Treasurer when he paid his Dow Tax as a matter of "distribution of justice." "Three hundred and fifty silver dollars. 'In God We Trust.' The Treasurer was dumb as the dollars. He warned the saloon keeper that unless he paid his tax in advance, he could not run his business. What is the matter with my business? "Nothing; only it is necessary to provide against the evils incident to it!"

And the saloon keeper paid his Dow Tax and ran his business 365 days in the year, from midnight to midnight, continues operating two saloons under the privileges of the same "tax be receipt."

But had as his business is, he could but feel that it is better than a Government administration that piously says, "In God We Trust," and then levies a special tax on a business which it pronounces a source of crime and misery.—Western Christian Advocate.

Literary Note.
In an historical article recalling the destruction of our National capital by the British forces in 1814, Clifford Howard in the July LADIES' HOME JOURNAL, will show that Dolly Madison, the most beloved and popular woman of her day, was courageous and fearless in the face of grave danger. In the mad stampede from Washington, that proceeded the invasion by the British troops, Dolly Madison was the last to seek safety in flight, and her final act before quitting the White House, as the enemy advanced, was to seize the Declaration of Independence and carry it with her to a place of safety. As the White House was immediately afterward looted and burned by the British, Mr. Howard declares that but for brave Dolly Madison the priceless parchment would have been destroyed.

Florida Citizen
At a Greatly Reduced rate.

The Florida Citizen is now one of the most complete newspapers in the United States, outside the great metropolitan centers. Its type is set entirely by machinery, and its printing is done by one of the large presses. Steam and electric power both are used and telegraph wires are carried directly into the office. The best material is employed in every department, and most of the members of the force are old and experienced journalists. The news of the world is obtained from the Associated Press and that of the State from Representatives stationed in every important town. The greatest care is taken to obtain correct reports and to avoid false and sensational rumors. Particulars of low criminalities and other matter unfit for household reading are excluded. In politics the paper is soundly Democratic, following the principles laid down by Andrew Jackson, and refusing to lend itself to temporary crazes and schemes for private advantage. The Daily Citizen claims to have a larger circulation than any other daily south of Atlanta and east of New Orleans.
The subscription price of the Weekly Citizen is \$1 a year and that of the Daily Citizen \$5. We will supply the
